

LA VOZ DE LA INFANCIA 2026
8/8 - INTERNATIONAL VOICE OF CHILDHOOD DAY
LISTENING TO CHILDREN, RESPECTING THEIR VOICES,
PROMOTING THEIR PARTICIPATION

ARALMA is a civil society organization with more than twenty years of experience promoting and defending the rights of children and adolescents.

We develop child protection initiatives in accordance with international human rights standards, particularly the United Nations Convention on the Rights of the Child. Our work focuses on supporting public and private institutions in building sustainable, respectful, and child-centered practices based on a shared responsibility for the wellbeing and protection of children.

Within this framework, ARALMA leads **The Voice of Childhood (La Voz de la Infancia)**, a campaign that this year marks its 11th consecutive year of promoting listening, respect, and meaningful participation for children and adolescents. The campaign is visibly represented through **Pinwheels of Hope (Molinitos de Viento)** and the character **Life**, which serve as symbolic, educational, and communication tools to promote messages of care, protection, and child participation in an accessible and respectful way.

ARALMA also works alongside organizations, institutions, and partner networks in different countries to strengthen recognition of children's right to be heard. In this regard, we encourage the recognition and celebration of **August 8th as The Voice of Childhood Day** in every country, province, municipality, institution, and community that chooses to join this initiative.

Our aspiration is that, through this collective growth and the commitment of organizations from different regions of the world, we can progressively advance toward the recognition of an **International Voice of Childhood Day**, built through a participatory process and supported by a global network committed to listening to children, promoting their participation, and protecting their rights.
